

Faith Minute.....

One of the gifts given by the Holy Spirit at Pentecost was the grace for the Apostles to speak in different languages so that the Gospel of God's love could be heard by all people. This act was truly a miracle!

We married couples can receive a similar grace to communicate love more effectively. One of the very practical ways we can enhance our married relationship is to learn to express our love for our spouse in their preferred "love language." According to Gary Chapman, author of "The Five Love Languages," spouses will increase their level of happiness within their marriage by learning to communicate more effectively through Gifts, Quality Time, Acts of Service, Words of Affirmation, or Physical Touch depending on the preferred "love language." What is your spouse's love language?

In families, children also have very different 'love languages'. If the time is taken to figure out what 'love' language you, your spouse and your children speak, it will make a difference in living every day. More joy, happiness and ultimately love will be found and shared! What a blessing that would be for all involved.

Please pray for our shut-ins and all those ill and in need of the Lord's healing touch...
